

Aura Series

Digital and analogue TV reception for community and individual antenna installations, some models totally adapted to the LTE environment.

FEATURES

- Small size, minimum aesthetical impact maximizing the electrical parameters.
- High gain/length ratio.
- Two references adapted for the protection against LTE signals. 84401: 790 MHz LTE and 84402: 694 MHz LTE
- Easy installation, no need for tools.
- Optimized single unit packing.

LTE 800,
up to 790
LTE 700,
up to 694

RECEPTION

MODEL		AURA	AURA D2
Reference		84401	84402
Channels		21÷60	21÷48
Gain	dB	12	
Impedance	Ω	75	
Return losses	dB	15	
Front to back ratio	dB	15	
Horizontal opening angle	$^{\circ}$	15	
length	mm	430	
Packing dimensions (1UN)	mm	530x180x80	
Weight	Kg	1,1	
DC pass	mA	-	
Packing dimensions	mm	170x105x50	
Weight	Kg	0.355
