

EVA Series

Digital and analogue TV reception for the installation of collective and individual antennas fully adapted to LTE.

FEATURES

- Reduced size, minimal aesthetic impact maximizing electrical parameters.
- High gain/length ratio
- 2 references suitable for protection against LTE signals, 84416: 790 MHz LTE and 84415: 694 MHz LTE
- Easy installation, no need for tools
- Multiple packaging for better transport

EVA
EVOLUTIVE ANTENNA

MODEL		EVA	EVA 2
Reference		84416	84415
Channels		21÷60	21÷48
Gain	dB	14	
Impedance	Ω	75	
Return losses	dB	15	
Back-to-front ratio	dB	15	
Horizontal opening angle	°	39	
Length	mm	780	
Packing dimensions (5 UN)	mm	559x310x500	
Weight	Kg	5
